

Meritor Parts

Meritor Part - The Meritor Company is a premier international dealer established upon 100 years of tradition of quality and service. Meritor concentrates on integrated systems together with a range of modules and parts to the original machinery manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of experienced experts.

Meritor strongly believes in just hiring future focused employees. These top-caliber individuals can rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance necessary so as to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides all of their employees different chances for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering workers.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the globe in 19 nations and in 5 different continents.

The supplier development network is specifically located in order to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business processes and implement lean methods.
